SKILLS

Technical Skills: Java, Python, C++, JavaScript, Google Cloud, Oracle Cloud

Tools & Frameworks: Spring Boot, Hibernate, J2EE, AngularJS, Git, Postman, Eclipse, VSCode, Putty, Redis, MySQL, Kafka, Selenium, Kubernetes, REST APIs, CI/CD

Certifications: Oracle Cloud Data Management Foundations Associate, Oracle Cloud Infrastructure (OCI) Foundations Associate

WORK EXPERIENCE

ACCENTURE

Gurugram, India

Associate Software Engineer

May 2024 – Present

- Built and maintained **RESTful APIs** using **Java** and **Spring Boot**, supporting key features in a production-grade web application and conducted Unit testing using **Postman**.
- Assisted in managing application deployments using **Kubernetes**, including writing basic deployment and service YAML files.
- Collaborated with senior developers to design application workflows and implement business logic using Java 11 features like Streams and Lambdas.
- Utilized Google Cloud services including **BigQuery** and Pub/Sub for backend data processing and analytics.
- Worked collaboratively in **Agile** teams using **JIRA** and **Confluence**, contributing to sprint planning, client demo, peer code reviews, and daily stand-ups.

INFOSAI PVT. LTD.

Nagpur, India

Java Developer Intern

Jan 2023 – Aug 2023

- Developed RESTful web services using Spring Boot for a banking application, enabling robust user interactions.
- Integrated SMS-based OTP APIs, increasing user authentication reliability by 30%.
- Troubleshoot and resolved 30+ production issues using server logs via Putty and implemented RESTful APIs using Spring Boot to enable seamless integration and efficient data exchange within banking web applications.

ASTRERISC TECHNOCRATS

Nagpur, India

Software Developer Intern

Jun 2022 – Jan 2023

- Enhanced backend modules using Spring Boot and Java in collaboration with frontend teams.
- Conducted 20+ code reviews and debugging sessions, improving system stability by 30%.
- Improved application scalability and load performance by 25% through optimized code practices and enhanced application functionalities using Spring Boot for efficient code implementation.

PROJECTS

BANKING SYSTEM

[GitHub Repo](#)

- Built banking functionalities using Java and Spring Boot as part of a senior-led team.
- Optimized and debugged APIs, reducing backend load time by 20%.
- Integrated Zuul and Eureka for dynamic routing and scalable architecture.

STUDY-STREAM

[GitHub Repo](#)

- Developed backend using Spring Boot for an e-learning platform supporting live classes and student-teacher interaction.
- Designed RESTful APIs for certification workflows, exams, and scalable learning modules.

BED BOOKING APPLICATION

[GitHub Repo](#)

- Led a 4-member team to create a J2EE-based emergency bed booking system for hospitals.
- Managed complete application development including backend logic and deployment

EDUCATION

PRIYADARSHINI BHAGWATI COLLEGE OF ENGINEERING

Nagpur, India

Bachelor of Engineering, Information Technology

Jul 2019- Jun 2023

Cumulative GPA: 7.44/10

ACTIVITIES

GOOGLE DEVELOPER CLOUD GROUP NAGPUR

Nagpur, India

Volunteer

Sep 2022 – May 2023

- Supported cloud events, workshops, and local developer initiatives
